

Future Lives on Ideas

One primer for every occasion -
Wigranit® All-Round Primer AF

The new Wigranit® 2K PU All-Round Primer AF One all-rounder for all applications

The new Wigranit® 2-pack PU All-Round Primer AF is very multi-talented. A white-pigmented, solvent-containing, 2-pack primer, it can be used in a variety of applications, such as public buildings, hotels and interior fittings in ships. As an all-rounder, it ensures a perfect opaque primer coat on wood and wood materials, such as particle boards with primer foil, solid wood or MDF.

It is easy to apply and sands very well. However, what truly distinguishes the Wigranit® 2-pack PU All-Round Primer is its very smooth surface that provides an excellent foundation for a perfect surface result. The primer has the further advantage that it can be applied to MDF without any prior isolation (except in wet rooms).

Meets the following test standards

-  DIN 4102 – Standard applicable to Germany - Reaction to fire/flame resistance - ABP – General appraisal certificate
-  Solas 74/88, Imo Resolution MSC.36(63)-(1994 HSC-Code)7 and USCG approval
-  DIN 68930 – Requirements on kitchen furniture surfaces with regard to the resistance to alternating climate

-  EN 71-3/9 Free from soluble heavy metals/chemical elements (e.g., test of children's toys)

Benefits at a glance:

- Easy to apply
- For all interior surfaces
- Perfect for work with other system components in the Wigranit® pigmented topcoat system
- Can be applied to MDF without insulation (except in wet rooms)
- Very good filling properties

Extremely smooth surfaces

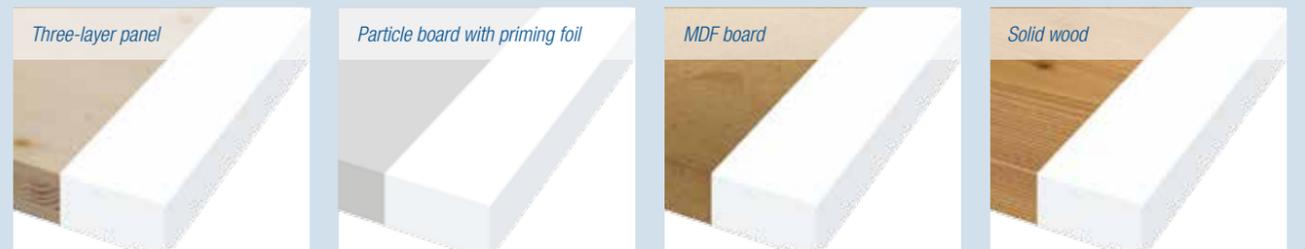

Very quick to sand

Perfect for mass production

Versatile

* for wet rooms we recommend using the established Wigranit® Insulating Primer IF

Perfectly coordinated - the new All-Round Primer and the Wigranit® Novacolor pigmented topcoat system

The new Wigranit® All-Round Primer AF and the tried and tested Wigranit® Isolating Primer IF are perfectly coordinated with the Wigranit® Novacolor pigmented and effect topcoats. The matching Crystallit® clear topcoats protect coloured surfaces and produce the appropriate gloss or a silk gloss effect. As all products are hardened with the PUR 5085 hardener, the primer, the pigmented and the clear topcoat system is completely reliable and produces perfect results!

Wigranit® Novacolor pigmented topcoats are available in almost all colours desired, e.g., according to RAL, Sikkens, NCS or to your own sample.

Almost any desired colour available
